SALVAGE & COASTAL FLOOD ADVISORY PROTOCOL

MANDATORY ON-SITE SILT & ECU CHECK

To guard against unrecorded hurricane floodwaters or cosmetic auction rebuilds, execute physical kick-panel ECU inspection below before payment.

4. NIGERIAN ROADSIDE MECHANIC PHYSICAL INSPECTION PROTOCOL

COMPONENT UNDER AUDIT	THREAT LEVEL	INSPECTION DIRECTIVE & NIGERIAN FRAUD PREVENTION ACTION
Catalytic Converter ("Indomie")	THEFT RISK	**Inspect exhaust manifold immediately.** Lagos port dockers and car lot attendants frequently slice open exhaust canisters to extract the precious platinum honeycomb scrap.
Hydraulic Transmission Clutch	MAJOR REPAIR	**Perform cold engagement test.** Shift from Neutral to Drive and Reverse. Any lag over 2.0 seconds or violent mechanical jerk signals internal forward clutch wear.
Floorpan & ECU Silt Check	FLOOD TRAP	**Unfasten driver-side lower kick panel.** Inspect the ECU harness connector and seat base mounting bolts for orange rust and dried muddy silt deposits.
Cluster Bulb Warning Fraud	TAMPER FRAUD	**Turn key to Position II (Ignition ON).** Check Engine Light (CEL) and SRS Airbag bulbs MUST illuminate and shut off upon crank. If absent, bulbs were removed to mask faults.
Front Lower Ball Joints	SAFETY RISK	**Pry lower control arm ball joints.** First-generation CR-Vs suffer known lower ball-joint pop-out on rugged Nigerian terrain. Check dust boots for tears or play.

LEGAL DISCLAIMER & STATUTORY LIMITATION OF LIABILITY (FCCPA 2018 COMPLIANT):
This document is an advisory technical specification and pre-purchase guidance report compiled from United States National Highway Traffic Safety Administration (NHTSA vPIC) federal registries and Nigerian Customs Service (NCS CET 2022-2027) statutory tariff schedules. This report does **NOT** constitute a statutory mechanical warranty, insurance underwriting policy, or guarantee of title. Bethelmind Digital Solutions and its technical analysts disclaim all liability for undisclosed private auction records, post-import mechanical alterations, dockside component theft (including catalytic converter removal), or unrecorded cosmetic rebuilds. Total financial liability under any claim arising from this advisory

report is strictly capped at the fee paid (₦3,500 NGN). **Buyer Directive:** Execution of the on-site physical mechanical protocol (Section 4) by a certified automotive technician is mandatory prior to releasing vehicle funds.
